

## Clark Forklift

Clark Forklift Forklift Training - Currently, there are over 350,000 Clark forklifts performing globally, and in excess of 250,000 operating in North America alone. With five major lines across the world, Clark is proud to be one of the most expansive corporations in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand powered lift trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift, handles more than 120,000 specific components built for 20 unique designs of lift trucks and automated equipment. Your regional Clark Supplier is your total source for availability of all your parts requirements supplied by Clark Totalift.

Clark has a phenomenal Parts Supply team. The items warehouses are conveniently situated in Changwon, South Korea and Louisville, Kentucky to ensure exceptional service to both their buyers and their dealers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing manufacturers. Driven to supply the highest level of value and service to our customers, Clark remains on the leading edge when it comes to improving productivity and benefiting performance.

Clark Totalift has a really amazing international support network. With over 550 locations globally, supplier representation in over 80 countries and 230 locations in North America, their high level of dedication to their clients predominates the materials handling industry.

By revolutionizing the operator restraint system protection feature, Clark proudly remains a leader of innovation in the industrial equipment and automated forklift industry. This exceptional dedication to safety is now a standard feature on every forklift.

Clark has a unyielding objective to possess the No. 1 quality system in the industry which is demonstrated by their commitment to ISO standards. Clark, is the first manufacturer of forklifts and lift trucks to be globally certified with quality standard ISO 9001 in all of its production facilities. Additionally, the ISO 14001 Environmental Stewardship System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement enables Clark to be prepared for any environmental restrictions, thus placing them in a dominant market position.

### Supply Efficient Manufacturing

Clark has chosen the extremely economical and advantageous system of "Lean Manufacturing" for its assembly facilities and application of resources. This system was developed to acknowledge the most effective method of manufacturing plant management and ensuring maximum efficiency. Clark has completed this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

### Engine Design

Clark's product engineers and suppliers join together to improve the efficiency and brilliance of their merchandise while minimizing expenses. The contemporary value engineering program combines modern product improvement and provides superior customer support and service within the industry.
